## *Welcome to 'The Big Easy'* 2025 AAFPRS Spring Meeting @ COSM!

This one-of-a-kind event provides a forum for residents, fellows-in-training and medical students to share ground-breaking and practice-changing research that improves patient care.

We carefully crafted this agenda with you in mind! We aim to address your practice gaps, help you refine your technique, and increase your knowledge.

Our robust educational program features an impressive lineup of presentations from world-renowned experts, as well as top-rated abstracts that highlight important research studies to help move our specialty forward.

Topics cover the entire spectrum of our profession, from basic and advanced procedures to surgical innovations and practice management pearls. Take advantage of this opportunity to get a first-hand look into the art and science of Facial Plastic and Reconstructive Surgery.

While you're here, be sure to have fun. Because COSM convenes members from several organizations, you'll be able to connect with peers from other otolaryngology-focused societies during the many networking breaks. You will have ample opportunities to learn, collaborate, share information, and exchange ideas.

***Welcome. We're glad you're here!***

# PROGRAM OVERVIEW

## TARGET AUDIENCE

This activity is designed to meet the clinical and professional education needs of young physicians, residents, and medical students, in the fields of Facial Plastic and Reconstructive Surgery and Otolaryngology–Head and Neck Surgery, as well as for healthcare professionals involved in surgical and non-surgical treatments used to restore, enhance, and rejuvenate the face. The clinical program is developed for physicians at all experience levels and covers aesthetic, reconstructive and congenital issues related to this specialty.

## LEARNING OBJECTIVES

At the conclusion of this activity, participants should be better able to effectively:

- Comprehend the fundamentals and principles of Facial Plastic and Reconstructive Surgery.
- Describe surgical procedures and minimally invasive treatments that can be used to restore, enhance, and rejuvenate the face.
- Increase awareness of minimally invasive and non-surgical techniques and technologies and understand their indications for use and how they can be incorporated into one's practice.
- Identify the different practice options after graduation and summarize the pros/cons of each career path. Distinguish ways to pursue leadership and growth opportunities within various practice environments.
- Apply evidence-based guidelines, identify unique surgical approaches, and utilize the best clinical practices for providing care to transgender and gender diverse patients.
- Review and recognize the many surgical and non-surgical techniques in Facial Rejuvenation and be able to adequately apply them to diverse clinical scenarios and patient populations, including younger and non-traditional patients.
- Assimilate new knowledge from presented research into his/her practice or research pursuits, as appropriate.
- Assess and treat acute and chronic facial paralysis and identify evidence-based surgical and therapeutic techniques used to manage this condition.
- Describe the concepts of Preservation Rhinoplasty and become aware of other new and current rhinoplasty techniques, as well as their indications for use.

## ACCREDITATION & CREDIT DESIGNATION

The Educational and Research Foundation for the American Academy of Facial Plastic and Reconstructive Surgery (AAFPRS Foundation) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The AAFPRS Foundation designates this live activity for a maximum of **10.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credits commensurate with the extent of their participation in this activity.

## HOW TO CLAIM CME

Continuing Medical Education (CME) Certificates are only available to individuals who registered for the AAFPRS Spring Meeting; instructions for claiming CME will be emailed to attendees after the meeting. If you have any questions, or need assistance, please contact us at [education@AAFPRS.org](mailto:education@AAFPRS.org)

## DISCLOSURE POLICY

The AAFPRS Foundation strives to ensure balance, independence, objectivity, and scientific rigor in all its educational activities. As such, instructors, speakers, course chairs, planners, and other individuals in a position to control or influence the content of an activity are required to disclose all relevant financial relationships or affiliations. Conflicts of interest are resolved, and educational content is thoroughly vetted for fair, balanced, scientific objectivity and appropriateness of patient care recommendations. You can view disclosures on our website.

## SCHEDULE OF EVENTS

**7 AM–7:45 AM**  
**Continental Breakfast**

**7:45 AM–7:55 AM**

**Welcome Remarks**

Join Course Chairs *Laura T. Hetzler, MD* and *Julia Toman, MD* as they kick off the AAFPRS Spring Meeting at COSM 2025!

**7:55 AM–8 AM**

**SPECIAL PRESENTATION:**

**Creating Ways to Get Content to You: Update from Facial Plastic Surgery & Aesthetic Medicine Journal**

*Moderator: Natalie A. Krane, MD*  
Alexandra J. Berges, MD  
William M. Swift, MD  
Flora Yan, MD

**8 AM–9:40 AM**  
**FACIAL RECONSTRUCTION**

**8 AM–8:20 AM**

**KEYNOTE PRESENTATION:**

**Computer Aided Mandible Reconstruction—New Paradigm or New Purgatory?**

P. Daniel Knott, MD, FACS

**8:20 AM–9 AM**

**Oral Abstract Author Showcase**

*Moderator: Julia Toman, MD*

**Comparing Complications and Patient-Reported Quality of Life Between the Anterolateral Thigh and Radial Forearm Free Flaps**  
Shaghayegh S. Azar, MD

**Nasal Septal Perforation Metrics as Predictors of Saddle Nose Deformity**

Nitish Kumar, MBBS, MD

**Surgical Closure vs 3D-Printed Customized Septal Prosthesis for Nasal Septal Perforation**

Pedro Lanca Gomes, MD

**Diagnostic Accuracy of Computed Tomography Findings of Osteosynthesis Nonunion After Vascularized Bone Grafts Reconstruction**

Garrett Ni, MD, MS

**Outcomes of Osseous Microvascular Midface Reconstruction**

Edgar Ochoa, MD

**Effect of Keloid Fibroblast-Derived Exosomes on Macrophage Differentiation**

Oghenefejiro Okifo, MD

**Nasal Tetrapod Reconstruction in Cleft Rhinoplasty: A Single Surgeon Experience**

Monica K. Rossi Meyer, MD

**Comparing AI Responses to Post-Operative Questions in Mohs Reconstruction**

Areeb Shah, BS

**9 AM–9:40 AM**

**PANEL DISCUSSION: Non-Traditional Approach to Defect Management**

*Moderator: Julia Toman, MD*  
William Mark Dougherty, MD  
Alyssa K. Ovaitt, MD  
Andrea M. Park, MD, FACS

**9:40 AM–10 AM | Celestin Foyer Coffee Break**

**10 AM–11:30 AM**  
**FACIAL REJUVENATION**

**10 AM–10:20 AM**

**KEYNOTE PRESENTATION: Essentials of Facial Rejuvenation**

Parker A. Velargo, MD, FACS

**10:20 AM–10:50 AM**

**Oral Abstract Author Showcase**

*Moderator: Monica K. Rossi Meyer, MD*

**Modern Surgical Browlifts and Associated Outcomes: A Scoping Review**

Sanjana Dhulipalla, BS

**Facial Aesthetics and Patient-Centered Considerations in a U.S. Population**

Jaclyn Lee, MD

**Pretty Privilege: Does Knowing that Someone had Facial Plastic Surgery Change Others' Perceptions of Them?**

Steven D. Losorelli, MD, MS

**Hair Preservation and Restoration in Chemotherapy-Induced Alopecia**

Cheng Ma, MD

**Measuring Attractiveness in Faces Generated by Artificial Intelligence**

Chris Park, MD

**10:50 AM–11:30 AM**

**PANEL DISCUSSION: Building an Aesthetics Practice in Academia**

*Moderator: Laura T. Hetzler, MD*

J. Madison Clark, MD

Celeste C. Gary, MD

Robin W. Lindsay, MD

Sam P. Most, MD

**11:30 AM–12 PM**  
**CAREER PLANNING & RESEARCH DEVELOPMENT**

**11:30 AM–12 PM**

**PANEL DISCUSSION: Grant Writing: How I Got Funded and How You Can Get Funded Too!**

*Moderator: Amar C. Suryadevara, MD*

Lamont R. Jones, MD, MBA

Natalie A. Krane, MD

Andrea M. Park, MD, FACS

Jon-Paul Pepper, MD

**12 PM–1 PM | Celestin Foyer Lunch with Exhibitors**

**1 PM–2:30 PM  
PRACTICE MANAGEMENT**

**1 PM–1:20 PM**

**Oral Abstract Author Showcase**

*Moderator: Lisa M. Morris, MD*

**Decisional Conflict Scale Validation Among Elective Otolaryngology Surgical Patients**

Kassandra M. Jade, MSc.

**Towards an Artificial Intelligence Nurse: Comparing Custom LLMs Against GPT-4o for Post-Operative Rhinoplasty Care**

Muhammad I. Munshi, BA

**Risk Associated with GLP-1 Partial Agonists in Facial Cosmetic Surgery**

Humzah A. Quereshy MD, MBA

**Assessing the Quality of Rhytidectomy Content on TikTok**

Alexander J. Szymczak, BA

**1:20 PM–1:50 PM**

**PANEL DISCUSSION: Patient Reported Outcome Measures (PROMs) in Clinical Practice and Research**

*Moderator: Myriam Loyo Li, MD*

Robin W. Lindsay, MD

Matthew Q. Miller, MD

Jon-Paul Pepper, MD

Emily A. Spataro, MD

Nneoma S. Wamkpah, MD

**1:50 PM–2:30 PM**

**PANEL DISCUSSION: Essentials of Setting Up a Practice—Key Lessons Learned**

*Moderator: Sarah Mazher Kidwai, MD*

Paige M. Kennedy, MD

Natalie A. Krane, MD

Julia Toman, MD

**2:30 PM–3 PM | Celestin Foyer  
Coffee Break**

**3 PM–4:30 PM  
RHINOPLASTY**

**3 PM–3:20 PM**

**KEYNOTE PRESENTATION: Essentials of Rhinoplasty**

Sam P. Most, MD

**3:20 PM–4 PM**

**Oral Abstract Author Showcase**

*Moderator: Neelam Phalke, MD*

**Impact of Septal Extension Graft Placement on Tip Support**

Max Feng, MD

**The Impact of Rhinoplasty Straightening Techniques on Patient Reported Outcome Measures**

Amrita Hari-Raj, MD

**New Persistent Opioid Use Following Rhinoplasty**

Alexander J. Barna, MPH

**Rhinoplasty Revisions: Predilection for Cosmesis as a Risk Factor**

Heli Majeethia, BS

**A CFD Comparison of Dorsal Preservation Rhinoplasty Versus DPR Plus Butterfly Graft: Is Grafting Always Necessary?**

Jonas R. Miller, MD

**The Digital Era of Rhinoplasty: Influence on Patient-Rated Outcomes**

Angela M Renne, BS

**Opiate-Sparing Post-Operative Pain Control in Septorhinoplasty: A Prospective, Blinded, Randomized Clinical Trial**

Aaron K. Rochester, DO

**Dorsal Preservation Rhinoplasty Versus Structural Rhinoplasty Functional Outcomes Meta Analysis**

Matthew I. Saleem, MD

**4 PM–4:30 PM**

**PANEL DISCUSSION: Lessons Learned—How My Practice Evolved in Rhinoplasty**

*Moderator: John J. Chi, MD, MPHS*

Clinton D. Humphrey, MD

Emily A. Spataro, MD

Scott J. Stephan, MD

**4:30 PM–5:15 PM**

**FACIAL TRAUMA**

**4:30 PM–4:50 PM**

**KEYNOTE PRESENTATION: Essentials of Facial Reconstruction**

Stephen S. Park, MD

**4:50 PM–5:10 PM**

**Oral Abstract Author Showcase**

*Moderator: Matthew R. Mignerol, MD*

**Development of a Patient-Reported Outcome Measure in Facial Trauma Patients**

Stephen S. Park, MD

**Overview of Ballistic Orbital Fractures at a Level 1 Trauma Center**

Nicholas J. Oberhelman, MD

**Risk of Trismus Following Maxillomandibular Fixation**

Dana Michlin, BS

**Social Disparities in Facial Fracture Management in the United States**

Eric Wei, MD

**5:10 PM–5:30 PM**

**KEYNOTE PRESENTATION: Augmented Reality for Trauma Education**

Alexander P. Marston, MD

**5:30 PM–6:30 PM**

**“Wine Down Wednesday”  
Happy Hour**

# SCHEDULE OF EVENTS

**7 AM–8:30 AM**  
**NON-CME**  
**NEURORRHAPHY WORKSHOP |**  
**Celestin H**

Join us for an immersive, hands-on Neurorrhaphy workshop, where you'll gain practical experience in nerve repair techniques under expert guidance. This workshop is designed for residents and fellows-in-training who are eager to enhance their surgical skills and discover methods for improving facial function. Offering step-by-step instruction and real-time practice, this is the perfect opportunity to advance your expertise in a focused and supportive environment!

**Instructors:**

- Laura T. Hetzler, MD
- P. Daniel Knott, MD, FACS
- Myriam Loyo Li, MD
- Jonas R. Miller MD
- Matthew Q. Miller, MD
- Jon-Paul Pepper, MD
- Scott J. Stephan, MD

*A separate registration and additional fee required.*

**The AAFPRS Foundation Thanks Axogen for its Educational Support of the Neurorrhaphy Workshop and the 2025 AAFPRS Spring Meeting.**

**7 AM–8:30 AM**  
**Continental Breakfast**

**8:30 AM–9:10 AM**  
**PRACTICE MANAGEMENT**

**8:30 AM–9 AM**  
**PANEL DISCUSSION: What Will My Life Look Like? Family and Career Planning in FPRS**  
*Moderator: Mingyang L. Gray, MD*  
 Nikita Gupta, MD  
 Natalie S. Justicz, MD  
 C. Claire Melancon, MD

**9 AM–10:20 AM**  
**FACIAL GENDER AFFIRMATION**

**9 AM–9:20 AM**  
**KEYNOTE PRESENTATION: Essentials of Facial Gender Affirmation**  
 P. Daniel Knott, MD, FACS

**9:20 AM–9:50 AM**  
**Oral Abstract Author Showcase**  
*Moderator: Alyssa K. Ovaitt, MD*

**Understanding the Patient's Path to Gender Affirmation Surgery: A Single Center Study**  
 Melodyanne Y. Cheng, MS  
 Safety of Intravenous Tranexamic

**Acid Use in Facial Feminization Surgery among Patients on Estrogen Supplementation**  
 Nina R. Patel, MS, MPhil

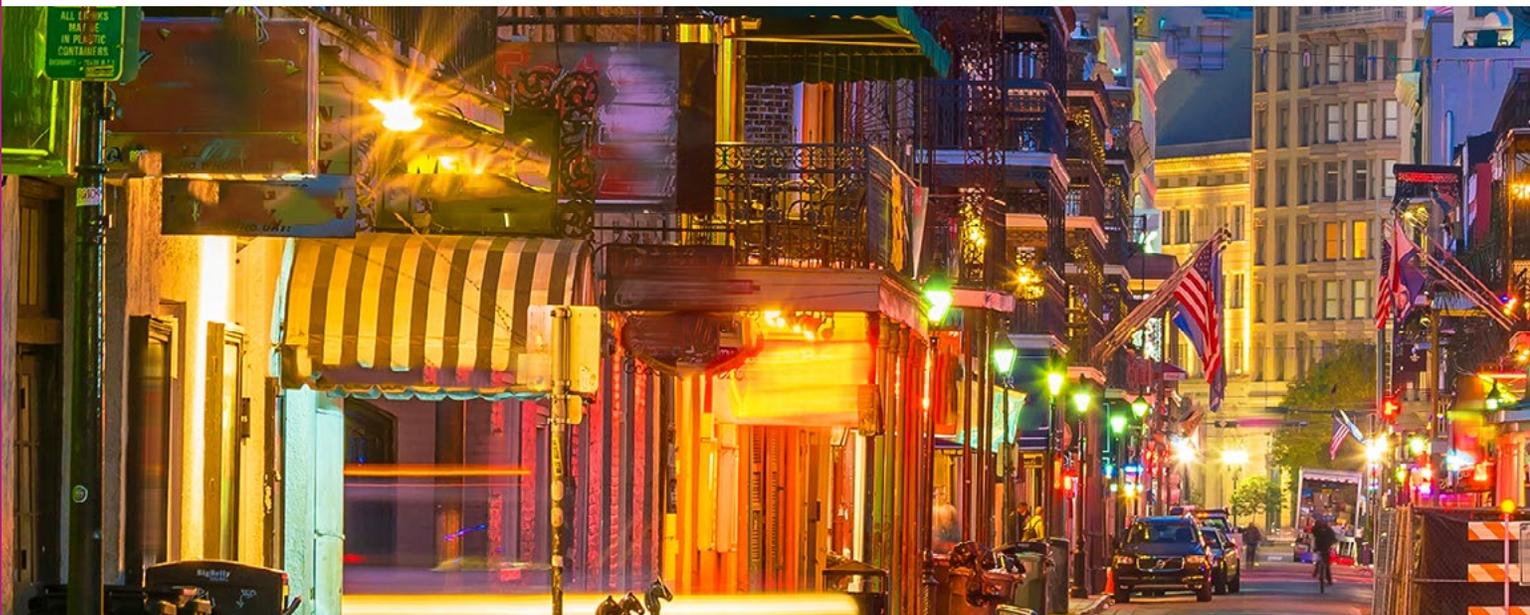

**Factors Influencing the Selection of a Gender-Affirming Facial Surgeon: A Patient Survey Study**  
 Nina R. Patel MS, MPhil

**Impact of Facial Gender-Affirming Surgery on Psychosocial Outcomes in Gender Dysphoria**  
 Hani Samarah, BS

**Utility of Artificial Intelligence for Assessment of Gender Identity**  
 Spenser S. Souza, MD, MS

**9:50 AM–10:20 AM**  
**Facial Masculinization Surgery—Translating Skills From Facial Feminization to a Unique Patient Population**  
 AJ Flaherty, MD  
 Joanna Jacobs, MD

**10:20 AM–10:40 AM | Elite Hall**  
**Coffee Break**

**10:40 AM–12 PM  
FACIAL NERVE**

**10:40 AM–11 AM**

**KEYNOTE PRESENTATION:**

**How to Start a Facial Nerve Center**  
Matthew Q. Miller, MD

**11 AM–11:30 AM**

**Oral Abstract Author Showcase**

*Moderator: Jonas R. Miller, MD*

**Selective Masseteric Nerve Transfer:  
A Modified Facial Reanimation Approach**  
Anne Y. Feng, MD

**Effect of Radiation on Facial Nerve Recovery  
Following Reanimation with Cable Grafting**  
Sarah E. Hughes, BA

**Comparing Smile and Facial Volume of  
Free Muscle Transfer Techniques for Reanimation**  
Elise M. Krippaehne

**A Novel Adaption of the Gliding Brow Lift:  
Brow Ptosis Correction in Facial Paralysis Patients**  
Elizabeth R. McGonagle, BS

**Cortical Mechanisms of Post-Paralytic Facial  
Synkinesis: A Scoping Review**  
Kyle W. Singerman, MD

**A Comprehensive Evaluation of Visual Attention  
and Gaze Patterns on the Paralyzed Face**  
Naomi R.V.H. Lerner, BA

**11:30 AM–12 PM**

**PANEL DISCUSSION:**

**Aesthetic Considerations in Facial Paralysis**

*Moderator: Matthew Q. Miller, MD*

Tessa A. Hadlock, MD  
Myriam Loyo Li, MD  
Scott J. Stephan, MD

**12 PM–1 PM | Elite Hall**

**Lunch with Exhibitors**

*-Free Time to Attend Other Society Meetings-*

**5:30 PM–7 PM | Elite Hall**

**AAFPRS Poster Reception**

View this year's posters to learn about ground-breaking, practice-changing research impacting our specialty. The Poster Reception provides an opportunity for abstract authors to share their research with an international audience. Stop by to meet the authors and learn about their work!

# AAFP<sup>RS</sup>

## PREPARING THE FUTURE OF FACIAL PLASTIC SURGERY

The American Academy of Facial Plastic and Reconstructive Surgery (**AAFP<sup>RS</sup>**) is the world's largest specialty organization, representing over 2,700 physicians, residents, fellows, and students globally.

Because we are a National Medical Specialty Society of the American Medical Association (AMA) and hold an official seat in both the AMA House of Delegates, as well as the American College of Surgeons board of governors, AAFP<sup>RS</sup> has a key voice in shaping the future of patient care and leading the next evolution of our specialty through education, advocacy, and innovation.

Join the Organization that Supports You! Whether you are a resident just starting out or a seasoned surgeon with decades of experience, **AAFP<sup>RS</sup>** offers a wealth of resources, networking opportunities, and tools to support you at every stage of your career. Visit our website to learn more about becoming a member of our prestigious organization.

**RESIDENT AND MEDICAL STUDENT  
MEMBERSHIP IS FREE!**

*We are fostering steps for your success... stop  
by our table to learn more!*
